1 BACKGROUND

2 The Gila Project in western Arizona was originally authorized for construction under a  
3 finding of feasibility approved by the President on June 21, 1937, pursuant to section 4 of the Act  
4 of June 25, 1910 (36 Stat. 836), and subsection B of section 4 of the Act of December 5, 1924  
5 (43 Stat. 701). It was further reauthorized and reduced in area by the Act of July 30, 1947  
6 (61 Stat. 628). Further reduction in irrigable acreage of the Wellton-Mohawk Division was  
7 authorized by the Colorado River Basin Salinity Control Act of June 24, 1974 (Public Law 93-320,  
8 88 Stat. 266) and the Salt River Pima Maricopa Indian Community Water Rights Settlement Act  
9 of October 20, 1988 (Public Law 100-512, 102 Stat. 2549). The Act of October 1, 1980  
10 (Public Law 96-367, 96 Stat. 1331) authorized improvement of the Gila River Channel to facilitate  
11 drainage in the Wellton-Mohawk Irrigation and Drainage District.

### **Wellton-Mohawk Title Transfer**

Senate Bill 620 (104th Congress) provided generic authority for the transfer of certain Bureau of Reclamation projects (including title to all Federal property associated with fully paid out projects) to project beneficiaries in those instances where the beneficiaries have already assumed responsibility for operation and maintenance. The legislation provided that the transfers would be without cost.

Public Law 106-221 was enacted on June 6, 2000, to specifically authorize this transfer.

#### **Background of Gila Project**

The Gila Project was originally authorized for construction under a finding of feasibility approved by the President on June 21, 1937, and was reauthorized and reduced in area to 115,000 acres by the Act of July 30, 1947. Further reduction in irrigable acreage of the Wellton-Mohawk Division was authorized by the Colorado River Basin Salinity Control Act of June 24, 1974. Gila Project construction began in 1936, and the first water was available for irrigation from the Gila Gravity Main Canal on November 4, 1943.

Construction of the Wellton-Mohawk Division began in August 1949. On May 1, 1952, water from the Colorado River was turned onto Wellton-Mohawk fields for the first time. The Wellton-Mohawk project was essentially complete by June 30, 1957. The Wellton-Mohawk Irrigation and Drainage District operates the irrigation facilities in the Wellton-Mohawk Division.

Wellton-Mohawk is one of the Reclamation Project Districts that have sought agreement with Reclamation for a transfer. Wellton-Mohawk was provided a certificate of discharge on November 27, 1991, and all debt to the United States was retired. On July 10, 1998, the District and Reclamation signed a Memorandum of Agreement that covered the details of the title transfer. It includes transfer of lands between the Federal Government and the District. No change in project operation is contemplated by the transfer, and the District will continue to limit irrigation to 62,875 acres, as provided in P.L. 93-320. The transfer includes all facilities and works.
