Whistleblower Comments on Supplemental Reports

August 10, 2014

Everything looks so nice when they put it that way, but the reality is other and I know this for a fact. why they don't put a monitor? another nurse, somebody whose work is to check on each and every one of the residents and his surroundings? it can be done by 7.00 am, 10.00, 12.00, 3.00 and so on. Instead of filing out forms or adding much work to the nursing staff. Just one person to supervise each resident every 3 hours and also get feedback on residents and family, only one person can cover many areas and it can be use in the whole institution.

I think is positive, but heyy!, that's just me.

good day...
