

I am writing in reference to me reporting information found to be substantiated at G.V. Sonny Montgomery Medical Center. I was terminated due to whistle blowing on the person/persons involved in findings of patient care while employed as a Medical Support Specialist. Being fired caused me financial hard-ship and disrupted my life. I am living in Chicago and would like to know what will the out-come be since investigation has been completed and allegations are validated? Will I get compensated for my loss of employment? As a former veteran myself, I hold integrity to its highest when it comes to care for our veterans.

Regards,

*Kim L Washington*
