

In the second paragraph on page four, it states that Gene DeAngelis (the facility's CFO) "...correctly described the procedures for transfers from suspense accounts to permanent accounts," yet when I addressed Robert Kubec (in the presence of DeAngelis) on the incorrect procedures being used, DeAngelis said nothing when Kubec claimed that the procedures that he directed me to use were correct. In fact, when I emailed Kubec, I also copied DeAngelis on the email submitting written documents from the National Accountants, the VISN, and the News Flash that proved that Kubec's directives were incorrect, and DeAngelis still did not interject to take corrective action. Furthermore, this issue came up several more times to the point where Kubec used this incident as an opportunity to write me up for insubordination, and DeAngelis still did not interject.

Sincerely,

 8/28/12

Brigitte Bennerson
