Washington, D.C. 20036-4505

13 May, 2026

OSC File No. DI-24-000271

To whom it may concern,

Thank you for the opportunity to respond to the findings and proposed corrective actions to bring Red River Army Depot into compliance with applicable laws and regulations and the Clean Air Act.

My only comments are that I concur with the findings of the thorough investigation carried out by the Investigating Officer (IO) and that I applaud the corrections planned/implemented throughout the base. I believe these positive changes will increase efficiency, lower costs, increase safety, and provide our customer "The Warfighter" with the best equipment possible which is our ultimate end goal at Red River Army Depot. "Build it as if our lives depend on it... Theirs do!"

Sincerely,

A black rectangular redaction box covering the signature of the sender.
